

Celebrating 46 YEARS OF QUALITY!

46th Annual

Bull Sale

2.19.26 — 12:30 PM (MT)

— Gordon, Nebraska —

Greetings!

Welcome Friends!

It's our great pleasure to welcome you to the 46th Annual Krebs Ranch Bull Sale!

What an incredible time to be alive and be in the cattle business! Those of us making our living in ranching have seen both good times and tough times in this business but, most have never seen times as good as they are today. You, the cow/calf producer, are in the driver's seat and holding all the cards!

Indeed, times are really good for the American rancher...but for how long? That's the question on everyone's mind. The understandable fear among beef producers is that this incredible market will end before they sell the next set of calves. While none of us know the future...we strongly believe that this market isn't going to change any time soon. In fact, the last quarter of 2025 revealed some very positive data telling us that this market has legs and will stay strong for some time to come, such as:

- *As of November 2025, cattle on feed were down 2% from the previous year.*
- *As of October 2025, placements were down 10% from the prior year...which was the LOWEST since 1996.*
- *Marketing of fed cattle was down nearly 12%...confirming a tighter supply of cattle.*
- *Any herd expansion that may be happening...is happening very, very slowly.*

As we each plan for the future of our respective operations, it's important we deal in facts, not fear. And the fact is that beef consumers LOVE the top-quality product you produce and they're paying you a good wage to produce it! So, stay the course...keep your customers happy...keep making the best cattle you can make...keep pushing forward. You are the master of your own destiny and this market is ready to reward you for the fruits of your labor!

To help you meet your goals, we've sought out and made significant investments in new herd sires with advanced genetics that will guarantee you and your program stay at the forefront of this competitive business, including:

- *Genetics that sire faster growing, thicker made calves with more QUALITY!*
- *More carcass quality than ever before with improved marbling genetics!*
- *A large selection of new bloodlines and fresh pedigrees for cowherds that need to update!*
- *Elite foot quality. We take foot quality seriously...if foot problems are a concern, we can help!*

Last, but certainly not least...we want to express our deep gratitude for you, our valued customers. If you've done business with us before, our family thanks you for your continued support. Your loyalty means more to us than you'll ever know. If this is your first experience with Krebs Ranch...we thank you for giving us the opportunity to serve you. Our team is eager to meet and exceed your expectations.

Sincerely,

Eldon and Louisa Krebs

Ty and Kaleigh Krebs

Take and Kami Scott

Our Bulls are Developed.....

Every Bull Looks Good on Sale Day...

But, How Do They Look After Breeding Season?

The presentation of bulls on sale day is important. But what's more important to us is the way they look at the end of breeding season. One of the best compliments we get is a customer telling us how well their Krebs Ranch bulls held up over the summer. Our development is designed to prevent "summer meltdown" and foot issues later in life.

*Sale day presentation is important...
but what's more important to us is
**the way your bulls look at the
end of the breeding season.***

with Longevity, Fertility and Foot Quality in Mind!

"Our priority is your bull's longevity!"

"Proper bull development prevents fat deposits in the scrotal... which can hurt fertility."

"Every Krebs Ranch bull has passed a breeding soundness exam prior to sale day."

"Krebs Ranch bulls are strictly sorted for foot quality and developed at a reasonable rate to ensure years of problem free service"

Your Calves are Worth More Than Ever!

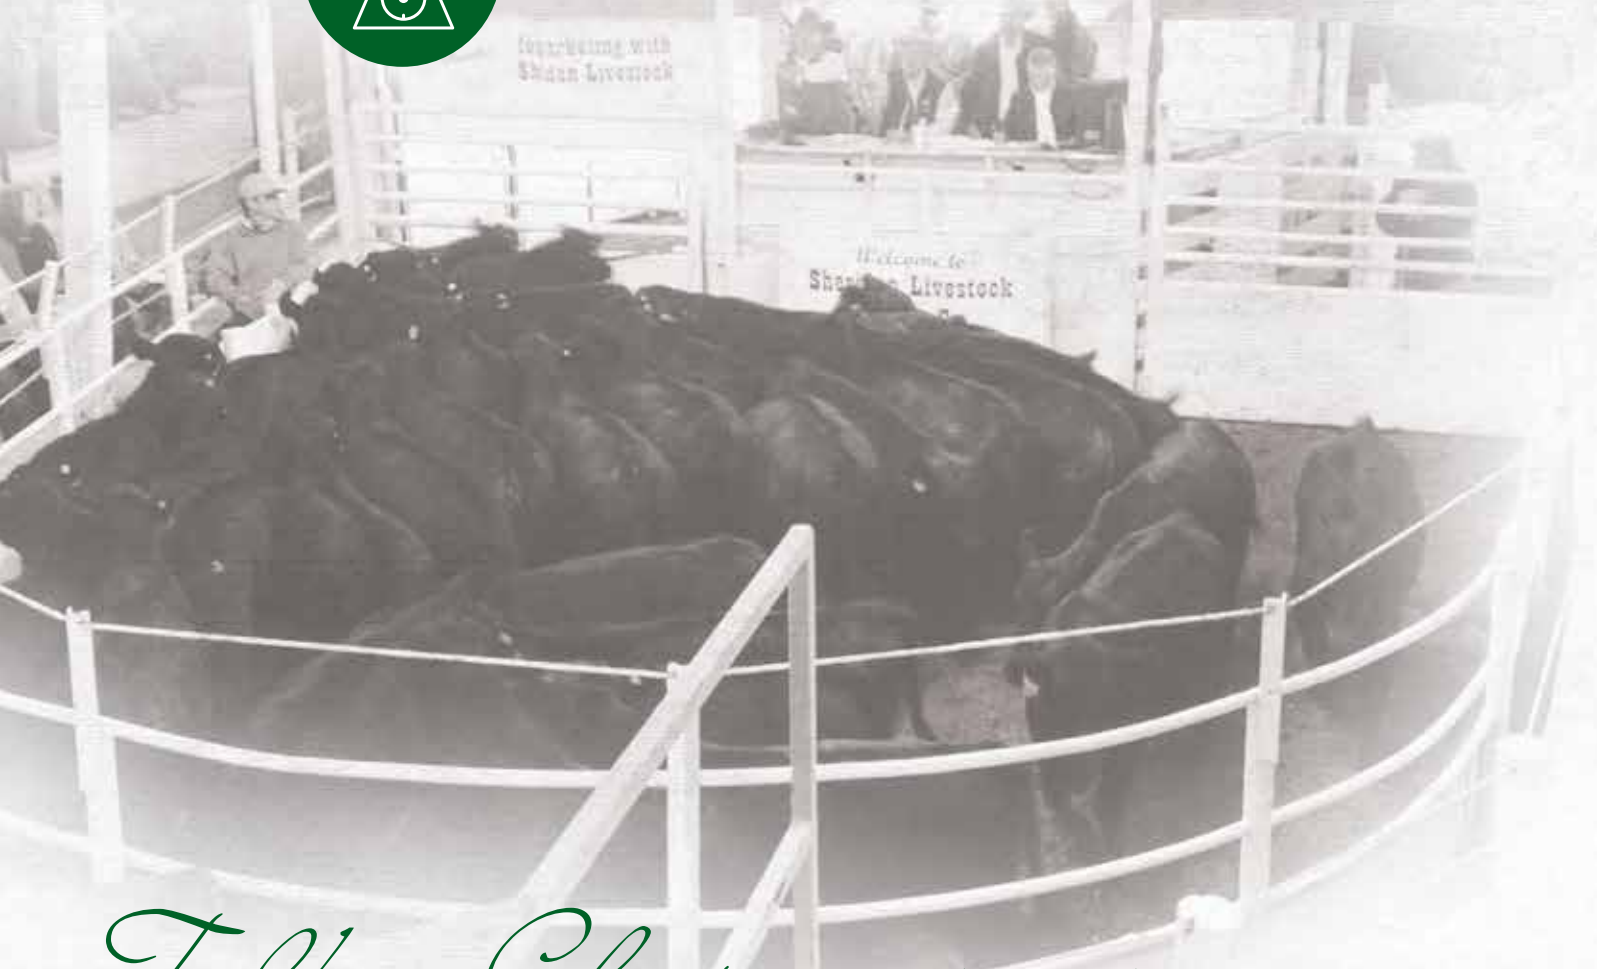

**MORE POUNDS of Pay Weight puts
MORE MONEY in Your Pocket!**

**The AVERAGE Weaning Weight
in this Sale is OVER 765 lbs!**

**More than 65 Bulls in the Sale
Weaned at 800 lbs or MORE!**

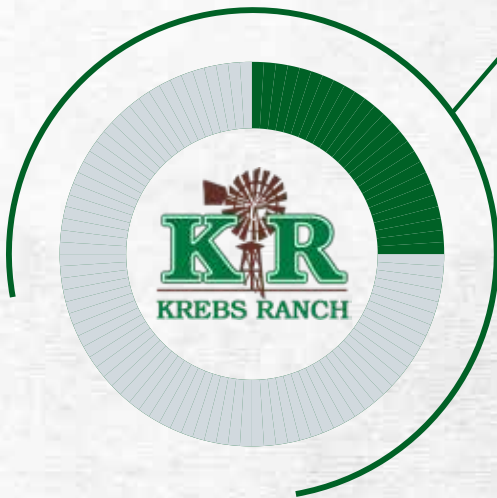

Talk is Cheap ...But, the Scales Don't Lie!
MORE POUNDS + MORE QUALITY = MORE PROFIT FOR YOUR BOTTOMLINE!

BREED LEADING EPDs

for Faster Gains and More Maternal Performance!

TOP 25% *of Angus breed*

Angus Bulls with Top-Ranking Weaning EPDs!

- 70% of the bulls in the sale rank in the **top 25%, or better, of the Angus breed!**
- The Average WW EPD of the Bulls in this Sale is +81...Over 10 Pounds Heavier than the AAA Average WW EPD of +68!

Angus Bulls with Top Ranking Yearling EPDs!

- 65% of the bulls in the sale rank in the **top 25%, or better, of the Angus breed!**
- The Krebs Ranch Avg YW EPD of +140 is over 20 pounds better than the Angus breed average of +120!

Krebs Ranch Bulls Offer Better Fertility!

That's Important Because Profit Begins at Conception!

- The Scrotal Circumference EPD (SC) is exactly what you think...it predicts a bull's chance to sire more scrotal size. You may not be familiar with the heifer pregnancy EPD (HP). It helps predict the chance that a bull's daughters will get pregnant as first-calf heifers during a normal breeding season.
- The Krebs Ranch average HP EPD of +13.2 is better than the Angus breed average of +12.2!
- The Krebs Ranch average SC EPD of +1.0 is better than the Angus breed average of +.89!

Maternal Strength is Bred into Every Bull at Krebs Ranch!

- The Maternal Weaned Calf EPD (\$M) combines important traits that affect a cow's profitability from conception to weaning such as weaning weight, milk, heifer pregnancy, docility, mature cow size and foot quality.
 - The Krebs Ranch average \$M EPD of +69 is better than the Angus breed average of +66!
 - The Weaned Calf EPD (\$W) combines important traits like birth weight, weaning weight and milk to predict the genetic differences in calves from birth to weaning.
 - The Krebs Ranch average \$W EPD of +80 is better than the Angus breed average of +65!
-

The Maternal Krebs Ranch Cow Herd Delivers Elite QUALITY!

Recommended for heifers or cows. A low birth, heavy weaning Academy son carrying a power-packed pedigree. He's the heaviest weaning weight bull in the 2-year-old pen and comes from an elite quality donor dam with striking eye appeal and added carcass merit... especially marbling genetics. Top 25% or better EPD's for CED, WW, YW, \$M and \$W.

Recommended for heifers or cows. A Moore Maker son designed to sire high value, top quality, replacement females. He's not only made with the right frame size, balance and structure... but he also carries a pedigree loaded with maternal genetics like Rally, Apollo and the KR Lassy Tee 5933 donor. Keep back as many daughters as you can!

A good framed bull with elite carcass genetics that will add value to fed cattle and help capture valuable grid premiums. His PAP EPD's indicate that he and his progeny will be compatible with higher elevations. Top 15% EPD's for WW, YW and \$Weaned. Top 25% marbling.

44 Faithful 2764 - \$180,000 Krebs Ranch Herd Sire

Krebs Ranch has aggressively invested in new genetics that meet the industry's demand for superior carcass genetics... and leading that pack is the new herd sire, 44 Faithful!

Faithful was discovered by Eldon and Troy Thomas in the spring of 2024, where they made him the \$180,000 top-selling sire of the 44 Farms Bull Sale. He's an elite carcass sire that meets our standards for fertility, foot quality, growth and Angus breed character. His first daughters have already become sought after features at fall female sales across the country, and his sons are reported to be favorites in herds where he's been used.

We are ALL IN on this exciting new sire group.

Adjust your eyes just a little bit here - as this is a younger March aged bull, but WOW is he cool made! A top phenotype bull whose more moderate frame size is complemented by his elite pattern, design and eye appeal. It doesn't take much imagination to see how striking and high quality the daughters of this Nexus son will be. His EPD's rank in the top 3% for Docility, top 10% YW, top 15% WW, top 20% RADG and top 25% Udder Quality.

Recommended for heifers or cows. A stunning phenotype bull who was the talk of our Yard display in Denver. He's a son of KR Top Gun, the \$40,000 top selling sire from our 2022 Bull Sale who is regarded as the best son of the popular AI sire, KR Mojo. His donor dam, KR Pride 0349, has built an impressive resume beginning with a division championship at the NJAS, then a Reserve Grand Champion banner at the NWSS in Denver and just last year...she produced a son, KR Career, who was the \$31,000 selection of Randy and Kent Nelson at Twin Mills Angus in our bull sale. It was once the case that bulls with this degree of eye appeal and quality - rarely had an EPD set and genomic profile to match. This bull proves that times have changes!

KR Top Gun – \$40,000 Sire of Lot 63

A bigger framed, heavier built, more growth-oriented son of Twist. An incredible EPD package with 15 traits in the top 25%, or better, of the entire breed! Top 1% Docility, top 10% YW, top 15% WW, RADG, Foot Quality and top 20% Heifer Pregnancy, \$Maternal and \$Weaned. If you are running at altitude, this bulls PAP EPD is among the best!

Lot 70 – KR Twist 5090

KR Britt 5929 – Donor Dam of Lots 69-71

KR Britt 5929 has earned the nickname of “The Herd Bull Factory” and rightfully so. She is the Energizer Bunny of our donor battery that keeps cranking out sale features and top-selling bulls year after year. She’s one of those unique females that seems to click with whatever sire she’s mated to. Donors like her are really special and you don’t get the chance to own many of them in your lifetime. When you get the chance to add her maternal influence and potency to your program, don’t hesitate—seize the opportunity. It will pay dividends for years to come.

This is the more moderate framed of these two Twist brothers that offers extra depth of body. Just like his brother, he reads really well on paper with top 10% EPD's for WW and top 20% for YW & \$Weaned. His PAP EPD indicates he will acclimate well to higher elevations.

KR Twist - \$52,000 Sire of Lots 70 & 71

44 Faithful Sons....

44 Faithful – Sire of Lots 72-74

Krebs Ranch has aggressively invested in new genetics that meet our customers' increasing demand for superior carcass genetics...and leading that pack is the new herd sire, 44 Faithful! Faithful was discovered by Eldon and Troy Thomas in the spring of 2024, where they made him the \$180,000 top-selling sire of the 44 Farms Bull Sale. He's an elite carcass sire that meets our standards for fertility, foot quality, growth performance and Angus breed character. His first daughters have already become sought after features at fall female sales across the country, and his sons are reported to be favorites in herds where he's been used. We are ALL IN on this exciting new sire group!

KR Savannah 6259 – Donor Dam of Lots 75-78

KR Casino – Produced from the same Cow Family as Lots 75-78

KR Savannah 6259 is the maternal sister to KR Casino who has positioned herself as the leading donor from the Savannah family. She possesses the elite quality and phenotype that the Savannah family is well known for, and that made her brother, KR Casino, so popular in the production of high-end show heifers that have been recognized as champions across the country. KR Savannah was the \$42,500 feature of our 2023 female sale where she selected by Seldom Rest Farm in Michigan to anchor a new tribe in their successful program.

A full brother to this year's top weaning weight bull with the bonus of improved figures for marbling. He possesses the same added bone and eye appeal that Twist stamps his sons with so consistently. His EPD profile ranks in the top 15% for Foot & Udder Quality, top 20% RADG and Heifer Pregnancy and top 25% YW.

103 weaning ratio. Study this deal a little closer. This is another top Nexus in this pen with tons of look, balance and quality. He doesn't skimp on data either with top performing growth and carcass figures ranking in the best 20% for YW & Foot Quality and top 10% Udder Quality.

Sons From the Leading Blackcap Donor in Our Embryo Program!

KR Blackcap 9072 – Donor Dam of Lots 179-181

The Blackcap family has been a mainstay in the Krebs Ranch cowherd for decades, producing such top selling herd sires as WK Vegas and KR Leader. KR Blackcap 9072 is fourth female in the genealogy of the Blackcap's to earn their way to the donor pen and is now writing her own chapter in the history book of the KR Blackcap family. You can trust that the maternal genetics in the next three bulls are the most proven, dependable and consistent we have to offer.

Recommended for heifers or cows. Stop and study this deal! We are so fired up about 44 Faithful is because of the valuable carcass merit he adds - without giving up the structure, eye appeal and quality we demand in our cattle. This bull is a perfect example of that. His powerful donor dam, KR Britt 5929, only adds to this guy's appeal.

Major league outcross genetics with a pedigree offering totally new bloodlines than all other Krebs Ranch genetics. You'll appreciate the power and muscle that this stout made bull displays. His impressive ribeye EPD ranks in the top 5% of the entire breed!

KREBS

Volume Discounts

Volume discounts will be offered as follows:

5% discount on purchase of 5 or more bulls; 10% discount on the purchase of 10 or more bulls.

FREE Wintering & Delivery

Because of the earlier sale date, Krebs Ranch will keep your bull until the end of March. Free delivery to central points beginning March 25. All other deliveries are at cost.

Sight Unseen Purchase Guarantee

Feel confident to use our sight unseen purchase guarantee. We guarantee the bulls will be as described and to your liking, or you don't own them.

First Breeding Season Guarantee

All bulls selling for \$3500 or more are guaranteed for the first breeding season. A breeding season is defined as the 60-day period following the first turnout of the bull. If a replacement bull is available, it will be provided. Or, if the buyer prefers, credit toward one bull will be given in the following sale. A salvage value of \$2,500 will be deducted from the credit. A veterinarian must diagnose all injured bulls. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage.

ALL CLAIMS MUST BE MADE BY SEPTEMBER 1, 2026.

Semen Collection Offered

Any bull selling for \$10,000 or more will receive a \$250 certificate of credit toward semen collection at Western Sire Services, courtesy of Krebs Ranch. Delivery of bulls remaining at WSS after April 5th will be the responsibility of the buyer.

Terms & Conditions

All bulls and heifers will sell under suggested sale terms and conditions of the American Angus Association.

Terms are CASH

All bulls are to be paid for during or immediately after the sale and will not be released until after settlement has been made. Cattle will not be transferred until paid for in full.

Herd Health

All bulls are on a complete health program and will be accompanied by health papers for shipment anywhere in the United States. All bulls have been vaccinated for Rednose, PI3, BVD, 7-way, Blackleg, BRVS and Haemophilus and have been poured and treated with Ivomec. All bulls have been tested negative for PI BVD. All bulls are AM, NH & CA free by test or pedigree.

Retained Interest

Krebs Ranch will be retaining 1/3 semen revenue sharing interest in every bull selling unless otherwise declared. Full possession and salvage value belong to the purchaser unless otherwise stated.

Trucking Discount

All bulls picked up sale day will receive a \$100 discount per bull.

Insurance

Insurance will be available sale day. Please notify the sale clerk at the time of settlement if you desire to purchase insurance.

Liability

All persons who attend the sale do so at their own risk and Krebs Ranch assumes no liability, legal or otherwise, for any accidents which may occur.
